

## Conference Schedule

- Jan. 31<sup>st</sup> 2020** – submit extended abstracts of papers (1 page A4) with the application for participation,
- Feb. 7<sup>th</sup> 2020** – acceptance of papers and confirmation of receipt of applications,
- Feb. 14<sup>th</sup> 2020** – deadline for payment of the conference fee,
- Feb. 28<sup>th</sup> 2020** – submit full papers,
- Mar. 30<sup>th</sup> 2020** – deadline for payment of the increased conference fee in the amount of 1800 PLN + VAT.

## Conference fees:

The conference fee in the amount of **1400 PLN + VAT** (for IEEE members 1250 PLN + VAT) should be paid to **14<sup>th</sup> of February 2020**. For technical reasons, the conference fee after this date is 1800 PLN + VAT. The fee includes:

- Conference Materials set,
- accommodation (additional fee for 1-person room is 500 PLN + VAT),
- meals,
- participation in the deliberations and accompanying events,
- parking.

Fee for each additional paper is 400 PLN + VAT.

The condition of participation is to fill in and send to the Organizer an application form and make payment.

## XI Science and Technology Conference

## Innovative Materials and Technologies in Electrical Engineering i-MITEL 2020

„Electrical engineering in the era of Industry 4.0”

[www.mitel.uz.zgora.pl/eng](http://www.mitel.uz.zgora.pl/eng)

Organizer  
**Association of Polish Electrical Engineers (SEP)**  
**Gorzów Branch**

We would like to kindly inform you that the papers from the jubilee conference i-MITEL 2018 have been published in the IEEE Xplore database and indexed, among others, in the Web of Science and SCOPUS databases. Also papers of the i-MITEL 2020 conference will be submitted for inclusion in the IEEE Xplore database, Web of Science and SCOPUS.

We pleased to invite you to participate in

## XI Science and Technology Conference i-MITEL 2020

The conference is a continuation of the cycle conferences organized by the SEP Gorzów Branch since 2000, in cooperation with SEP Szczecin Branch, Faculty of Electrical Engineering West Pomeranian University of Technology, Szczecin and Institute of Automatic Control, Electronics and Electrical Engineering University of Zielona Góra. Co-organizers of the conference are also: Faculty of Electrical and Control Engineering Gdańsk University of Technology, PTETiS Szczecin and Zielona Góra Branches, Department of Telecommunication, Information and Electrical Engineering University of Technology and Life Sciences in Bydgoszcz, Poland Chamber of Commerce of Electrical Engineering.

The conference covers all issues related to innovative electric materials and technologies, including power quality of electrical equipment, processing and transmission of electricity, smart grids, electromobility and efficient use of renewable energy sources in the context of environmental protection.

All submissions will be reviewed by at least two reviewers and recommended for oral or poster presentation. **As in the previous edition, papers prepared in English that pass the review process will be submitted for publish in the IEEE Xplore database. Furthermore articles will be recommended by Scientific Committee for print in journals: Archives of Electrical Engineering, Electrical Review, Informatics Control Measurement in Economy and Environment Protection and Electrical News.** The reviewed papers will be published in the form of Conference Materials and CD (abstracts). Condition of publication of articles are positive reviews and their presentation during the conference.

Within the framework of the conference competitions in the categories of the publication of the *Young Scientist* and *The Best Innovative Electric Product or Technology* will be held.

As in previous editions of conferences, we offer you an open discussion forum combining scientific and research with technical problems, and integrating theorists and practitioners in a wide range of theoretical and applied areas of electrical engineering.

During the conference a special session is planned, which will involve the presentation of results and implementations achieved within ongoing and completed scientific and technical projects.

## PAPERS AND CONFERENCE MATERIALS

Papers and abstracts in English or Polish (English preferred) should be prepared according to the paper template in section download in [www.mitel.uz.zgora.pl/eng](http://www.mitel.uz.zgora.pl/eng) and send via e-mail in the form of files name.doc and name.pdf on the e-mail address: [mitel@uz.zgora.pl](mailto:mitel@uz.zgora.pl).

## COMPANIES PRESENTATION

The promotion of companies conducting activities for the broadly understood electrics can be realized in the form of posts, exhibitions, presentations and advertisements. The cost of promotion depends on its scope and can be negotiated. As part of the Competition for *The Best Innovative Electric Product or Technology*, best products and technologies, will be honored by the Lubuskie Province Governor, the President of the Association of Polish Electrical Engineers (SEP) and the Presidents of the SEP Branches: Gorzów, Łódź, Szczecin, Zielona Góra, Bydgoszcz, Cracow and Poznań.
